

# 2020 Census is Happening Right Now

WSSRA Members—

This is to remind you of the importance of completing the 2020 Census form that you should receive (or have received) electronically in recent weeks. For lifetime educators, the funds and services that are provided to kids from the census are crucially important to properly educating youth—and especially those students who struggle academically and endure challenges at home. The following is from the official 2020 Census information group:

Now more than ever, a complete and accurate census count is essential to ensure that Washington State receives appropriate legislative representation and federal funding. The results of the 2020 Census will have a 10-year impact on funding for things like:

- Schools and education
- Health care facilities
- Housing assistance
- Child and adult food assistance programs
- Assistance for people transitioning out of homelessness
- Career and technical education grants
- Public transportation

**It has never been easier to self-respond -  
whether online, over the phone or by mail - without ever having to meet a census taker.**

The following links provide more information about the Census 2020 process, and the critical need we have for all families to participate.
